A portion of your distribution may be a return of capital. When a fund distributes more than its income and net realized gains, a return of capital may occur. As a result, some or all of the money that you invested in the Fund is paid back to you.

The amounts and sources of distributions reported in the Notice are only estimates and do not reflect possible year-end tax adjustments. A Form 1099-DIV reporting the tax characterization of dividends will be provided for federal income tax filing purposes after calendar year-end.
