2007 ANNUAL REPORT

# Premier VIT—OpCap Equity Portfolio

## Letter to Shareholders

Dear Shareholder:

I am pleased to provide you with the annual report for Premier VIT—OpCap Equity Portfolio (the “Portfolio”) for the year ended December 31, 2007.

Please refer to the following page for specific Portfolio information. If you have any questions regarding the information provided, please contact your financial adviser.

Thank you for investing with us, we remain dedicated to serving your investment needs.

A handwritten signature in black ink, appearing to read "B Shlissel". The signature is written in a cursive style with a large initial "B" and a long, sweeping underline.

Brian S. Shlissel  
President & Chief Executive Officer

# Premier VIT—OpCap Equity Portfolio

(unaudited)

## Important information about the Portfolio

Investment products may be subject to various risks as described in the prospectus. Some of those risks may include, but are not limited to, the following: derivative risk, small company risk, foreign security risk and specific sector investment risks. Use of derivative instruments may involve certain costs and risks such as liquidity risk, interest rate risk, market risk, credit risk, management risk and the risk that a fund could not close out a position when it would be most advantageous to do so. Portfolios investing in derivatives could lose more than the principal amount invested in those instruments. Investing in foreign securities may entail risk due to foreign economic and political developments; this risk may be enhanced when investing in emerging markets. Smaller companies may be more volatile than larger companies and may entail more risk. Concentrating investments in individual sectors may add additional risk and additional volatility compared to a diversified equity portfolio. Please refer to a prospectus for complete details.

### Form N-Q

The Portfolio files its complete schedule of portfolio holdings with the Securities and Exchange Commission (the “Commission”) for the first and third quarters of its fiscal year on Form N-Q. Form N-Q is available (i) on the Commission’s website at [www.sec.gov](http://www.sec.gov), and (ii) may be reviewed and copied at the Commission’s Public Reference Room in Washington D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

### Proxy Voting

The Portfolio’s Sub-Adviser has adopted written proxy voting policies and procedures (“Proxy Policy”) as required by Rule 206(4)-6 under the Investment Advisers Act of 1940. The Proxy Policy has been adopted by the Portfolio as the policies and procedures that the Sub-Adviser will use when voting proxies on behalf of the Portfolio. Copies of the written Proxy Policy and the factors that the Sub-Adviser may consider in determining how to vote proxies for the Portfolio, and information about how the Portfolio voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, are available without charge, upon request, by calling (800) 628-1237 and on the Securities and Exchange Commission’s (“SEC”) Web site at <http://www.sec.gov>.

The following disclosure provides important information regarding the Portfolio’s Expense Example, which appears on the Portfolio Summary page. Please refer to this information when reviewing the Expense Example for a Portfolio.

### Shareholder Expense Example

Portfolio Shareholders incur two types of costs: (1) transaction costs, and (2) ongoing costs, including management fees and other Portfolio expenses. The Example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000.00 invested at the beginning of the period and held for the entire period indicated which is from July 1, 2007 to December 31, 2007.

### Actual Expenses

The information in the table under the heading “Actual Performance” provides information about actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000.00 (for example, an \$8,600.00 account value divided by \$1,000.00 = \$8.60), then multiply the result by the number in the row entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The information in the table under the heading “Hypothetical Performance (5% return before expenses)” provides information about hypothetical account values and hypothetical expenses based on the Portfolio’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Portfolio’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the information under the heading “Hypothetical Performance (5% return before expenses)” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expense ratios may vary from period to period due to fluctuation in Portfolio size and expenses.

## 2007 ANNUAL REPORT

# Premier VIT—OpCap Equity Portfolio

(unaudited)

- U.S. stocks tracked a volatile course in 2007, delivering modest advances on average for the year on the strength of returns for energy, industrials and materials stocks. Growth stocks delivered positive returns in all market capitalization segments. Value stocks recorded losses for the year in all capitalization categories, most significantly in the small-cap group. Weakness in financials and consumer discretionary stocks detracted most from broad market returns in every category for the year as concerns over subprime mortgage securities and the effects of a deflated price bubble in housing weighed on markets.
- Information technology delivered the Portfolio's highest relative returns for the year. Shares of mobile phone maker Nokia more than doubled as the

company's strategy of providing low-cost phones to consumers in emerging markets delivered solid results.

- Among industrials, aircraft company Textron rose steadily throughout the year on healthy profit growth in its helicopter and jet aircraft businesses. The company raised its full-year guidance for earnings, and shares ended the year on a high note as the demand for private aviation is experiencing unprecedented growth.
- Stock selection in the energy sector benefited returns, as share value rose in tandem with record prices in crude oil. GlobalSantaFe, one of the largest offshore oil and gas drilling contractors, saw its stock rise with announcements of record financial and operating results. Late in the

year, GlobalSantaFe merged with Transocean Inc., the world's largest drilling contractor, a move which further propelled share value.

- Exposure to the financials sector detracted from Portfolio returns as banks and bond insurers were hard hit by concerns about subprime mortgages, the declining U.S. housing industry and credit tightening. Bond insurer Ambac Financial fell over concerns about the company's potential exposure to claims on defaults of mortgage-backed bonds as did MBIA. Shares of the number one U.S. mortgage lender, Countrywide Financial, fell as result of the firm's exposure to subprime mortgages. The declining U.S. housing industry negatively impacted Centex holdings.

### Total Returns for the periods ended 12/31/07 (\*Average Annual Total Return)

	1 year	5 year*	10 year*
OpCap Equity Portfolio	4.11%	13.08%	5.47%
S&P 500 Index	5.49%	12.83%	5.91%

*Performance quoted represents past performance. Past performance is no guarantee of future results. Investment return and the principal value of an investment will fluctuate. Shares may be worth more or less than original cost when redeemed. Current performance may be lower or higher than performance shown. For performance current to the most recent month-end, please visit <http://www.allianzinvestors.com/PremierVIT>. Total return calculations do not reflect charges imposed by the Variable Accounts, assumes reinvestment of all dividends and distributions and do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of shares.*

### Shareholder Expense Example for the period ended 12/31/07

	Beginning Value	Ending Value	Expenses Paid
Actual Performance	\$1,000.00	\$ 973.40	\$4.97
Hypothetical Performance (5% return before expenses)	\$1,000.00	\$1,020.16	\$5.09

Expenses are equal to the Portfolio's annualized expense ratio of 1.00%; multiplied by the average account value over the period, multiplied by 184/365 (to reflect the number of days in the period).

### Top Ten Industries as of 12/31/07

(% of net assets)

Financial Services	14.9%
Oil & Gas	11.2%
Technology	10.7%
Drugs & Medical Products	9.1%

- (1) Assumes reinvestment of all dividends and distributions.
- (2) Inclusive of custody expenses offset by credits earned on cash balances at the custodian bank (see (1)(G) in Notes to Financial Statements).
- (3) During the fiscal years indicated above, the Investment Adviser waived a portion or all of its fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 1.31% and 0.25%, respectively, for the year ended December 31, 2007; 1.16% and 0.35%, respectively for the year ended December 31, 2006; 1.05% and 0.32%, respectively for the year ended December 31, 2005; and 1.03% and 0.39%, respectively, for the year ended December 31, 2004.

*See accompanying notes to financial statements.*

**Premier VIT**  
**OpCap Equity Portfolio**  
**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2007**

**(1) Organization and Significant Accounting Policies**

Premier VIT was organized on May 12, 1994 as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a diversified, open-end management investment company. The Trust is authorized to issue an unlimited number of shares of beneficial interest at \$0.01 par value. The Trust is comprised of the: NFJ Dividend Value Portfolio, OpCap Balanced Portfolio, OpCap Equity Portfolio (the “Portfolio”), OpCap Global Equity Portfolio, OpCap Managed Portfolio, OpCap Mid Cap Portfolio, OpCap Renaissance Portfolio, and OpCap Small Cap Portfolio. The OpCap Global Equity Portfolio and OpCap Renaissance Portfolio liquidated subsequent to year-end on January 25, 2008. OpCap Advisors LLC (the “Investment Adviser”) serves as the Trust’s investment adviser. The Investment Adviser is an indirect wholly-owned subsidiary of Allianz Global Investors of America L.P. (“Allianz Global”). Allianz Global is an indirect majority-owned subsidiary of Allianz SE.

The Portfolio’s investment objective is long term capital appreciation through investment in a diversified portfolio of equity securities selected on the basis of a value approach to investing.

The accompanying financial statements and notes thereto are those of the Portfolio. The financial statements of the other portfolios are presented in separate reports. The Trust is an investment vehicle for variable annuity and variable life insurance contracts of various life insurance companies, and qualified pension and retirement plans.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

In the normal course of business, the Trust enters into contracts that contain a variety of representations which provide general indemnifications. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet been asserted. However, the Trust expects the risk of any loss to be remote.

In July 2006, the Financial Accounting Standards Board issued Interpretation No. 48, “Accounting for Uncertainty in Income Taxes—an Interpretation of FASB Statement No. 109” (the “Interpretation”). The Interpretation establishes for all entities, including pass-through entities such as the Fund, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Portfolio’s management has determined that its evaluation of the Interpretation has resulted in no impact to the Portfolio’s financial statements at December 31, 2007.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (“SFAS”) 157, Fair Value Measurements, which clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. Adoption of SFAS 157 requires the use of the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. At this time, the Portfolio’s management is in the process of reviewing the SFAS 157 against its current valuation policies to determine future applicability.

The following is a summary of significant accounting policies followed by the Portfolio:

***(A) Valuation of Investments***

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Portfolio securities and other financial instruments for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to guidelines established by the Board of Trustees or persons acting at their discretion pursuant to guidelines established by the Board of Trustees. Portfolio securities and other financial instruments listed on a national securities exchange or traded in the over-the-counter National Market System are valued each business day

**Premier VIT

(continued)**

**(1) Organization and Significant Accounting Policies (continued)**

***(A) Valuation of Investments (continued)***

at the last reported sales price; if there are no such reported sales, the securities are valued at the last quoted bid price. Other Portfolio securities traded over-the-counter and not part of the National Market System are valued at the last quoted bid price. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less or by amortizing their value on the 61st day prior to maturity, if their original term to maturity exceeded 60 days. The prices used by the Portfolio to value securities may differ from the value that would be realized if the securities were sold and the differences could be material to the financial statements. The Portfolio's net asset value is normally determined daily at the close of regular trading (normally, 4:00 pm Eastern Time) on the New York Stock Exchange ("NYSE") on each day the NYSE is open for business.

***(B) Investment Transactions and Other Income***

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is accrued as earned. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

***(C) Federal Income Taxes***

The Portfolio intends to distribute all of its taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

***(D) Dividends and Distributions***

Dividends and distributions to shareholders from net investment income and net realized capital gains, if any, are declared and paid at least annually. The Portfolio records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions is determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in-capital in excess of par or as return of capital.

***(E) Allocation of Expenses***

Expenses specifically identifiable to a particular portfolio are borne by that portfolio. Other expenses are allocated to each portfolio of the Trust based on its net assets in relation to the total net assets of all applicable portfolios of the Trust or on another reasonable basis.

***(F) Trustees' Retirement Plan***

The trustees have adopted a Retirement Plan (the "Plan"). The Plan provides for payments upon retirement to independent trustees based on the average annual compensation paid to them during their five highest paid years of service. An independent trustee must serve for a minimum of seven years (or such lesser period as may be approved by the Board of Trustees) to become eligible to receive benefits. For the year ended December 31, 2007, the Portfolio's payable in connection with the Plan was \$33,441, of which \$672 was accrued during the year ended December 31, 2007.

OpCap Equity Portfolio  
NOTES TO FINANCIAL STATEMENTS**

**December 31, 2007  
(continued)**

**(1) Organization and Significant Accounting Policies (continued)**

*(G) Custody Credits Earned on Cash Balances*

The Portfolio has an expense offset arrangement with its custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian fees. Had these cash balances been invested in income producing securities, they would have generated income for the Portfolio.

**(2) Investment Adviser/Sub-Adviser/Distributor**

The Portfolio has an Investment Management Agreement (the “Agreement”) with the Investment Adviser. Subject to the supervision of the Portfolio’s Board of Trustees, the Investment Adviser is responsible for managing, either directly or through others selected by it, the Portfolio’s investment activities, business affairs, and administrative matters. Pursuant to the Agreement, the Investment Adviser receives an annual fee, payable monthly, at an annual rate of 0.80% on the first \$400 million of the Portfolio’s average daily net assets, 0.75% on the next \$400 million of average daily net assets and 0.70% of average daily net assets thereafter. The Investment Adviser is contractually obligated to waive that portion of the advisory fee and to assume any necessary expense in order to limit total operating expenses of the Portfolio to 1.00% of average daily net assets (net of custody credits earned on cash balances at the custodian bank) on an annual basis. The Investment Adviser has retained its affiliate, Oppenheimer Capital LLC (the “Sub-Adviser”), to manage the Portfolio’s investments. The Investment Adviser and not the Portfolio pays a portion of the fees it receives to the Sub-Adviser in return for its services.

Allianz Global investors Distributors LLC (“the Distributor”), an affiliate of the Investment Adviser, serves as the distributor of the Trust’s shares. Pursuant to a distribution agreement with the Trust, the Investment Adviser on behalf of the Portfolio pays the Distributor.

**(3) Investments in Securities**

For the year ended December 31, 2007, purchases and sales of securities, other than short-term securities, aggregated \$16,410,883 and \$21,213,595, respectively.

**(4) Income Tax Information**

The tax character of dividends paid during the years ended December 31 were:

	<u>2007</u>	<u>2006</u>
Ordinary Income . . . . .	\$1,123,243	\$ 128,089
Long-term capital gains . . . . .	1,979,333	1,652,939

At December 31, 2007, tax basis distributable earnings of \$2,652,948 was comprised of \$338,725 of ordinary income and \$2,314,223 of long-term capital gains.

The cost basis of portfolio securities for federal income tax purposes is \$15,095,612. Aggregated gross unrealized appreciation for securities in which there is an excess value over tax cost is \$1,776,400; aggregate gross unrealized depreciation for securities in which there is an excess of tax cost over value is \$1,080,429; net unrealized appreciation for federal income tax purposes is \$695,971. The difference between book and tax basis unrealized appreciation/depreciation is primarily attributable to wash sales and return of capital on real estate investment trusts.

**(5) Legal Proceedings**

In June and September 2004, certain affiliates of the Investment Adviser (the “Affiliates”) including the Distributor and Allianz Global, agreed to settle, without admitting or denying the allegations, claims brought by the Securities and Exchange Commission (the “Commission”) and the New Jersey Attorney General alleging violations of federal and state securities laws with respect to certain open-end funds for which one of the Affiliates serves as investment adviser and the Distributor serves as principal underwriter. The settlements related to an alleged “market timing” arrangement in certain open-end funds formerly sub-advised by one of the Affiliates. The Affiliates agreed to pay

**Premier VIT**  
**OpCap Equity Portfolio**  
**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2007**  
**(continued)**

**(5) Legal Proceedings (continued)**

a total of \$68 million to settle the claims. In addition to monetary payments, the settling parties agreed to undertake certain corporate governance, compliance and disclosure reforms related to market timing and consented to cease and desist orders and censures. None of the settlements alleged that any inappropriate activity took place with respect to the Portfolio.

Since February 2004, certain of the Affiliates and their employees have been named as defendants in a number of pending lawsuits concerning “market timing,” which allege the same or similar conduct underlying the regulatory settlements discussed above. The market timing lawsuits have been consolidated in a multi-district litigation proceeding in the United States District Court for the District of Maryland. Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against the Affiliates or related injunctions.

The Affiliates believe that these matters are not likely to have a material adverse effect on the Portfolio or on their ability to perform their respective investment advisory and distribution activities relating to the Portfolio.

The foregoing speaks only as of the date hereof.

**Premier VIT**  
**OpCap Equity Portfolio**  
**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and Board of Trustees of  
Premier VIT—OpCap Equity Portfolio

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Premier VIT—OpCap Equity Portfolio, (one of the portfolios of Premier VIT, hereafter referred to as the “Portfolio”) at December 31, 2007, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as “financial statements”) are the responsibility of the Portfolio’s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2007 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
