

Premier VIT Performance

Performance quoted represents past performance. Past performance is no guarantee of future results. Investment return and the principal value of an investment will fluctuate. Shares may be worth more or less than original cost when redeemed. Current performance may be lower or higher than performance shown. Performance does not reflect charges imposed by variable products through which investments in these portfolios may be made. If reflected, these charges would reduce the performance shown.

Investors should consider the investment objectives, risks, charges and expenses of the Premier VIT portfolios carefully before investing. This and other information is contained in the product prospectus, which may be obtained elsewhere at www.allianzinvestors.com. Investors should read the prospectus carefully before investing. Investing involves risks, including possible loss of principal. Risks are increased when investing in smaller companies and foreign securities. Total return performance assumes that all dividend and capital gains distributions were reinvested on the payable date. Returns for periods of more than one year represent average annual total return.
